

LB 375
General Affairs Committee
Online Comments of Chris Wagner
Project Extra Mile
March 13, 2023

Essentially, LB375 is a bill that changes our statutes to protect business owners that don't know how to run their own business. Like all other alcohol retailers, these businesses order alcoholic beverages that they do not produce onsite through the wholesale tier to sell to their customers. That requires planning to ensure that they have enough product on hand to meet demand between orders. I don't believe the legislature should be in the habit of carving out exemptions in our statutes for poorly run businesses. Please indefinitely postpone LB375.
